Guide for Ancestry Users

A to Z of London Parishes

Introduction

This guide is provided to support your London parish records research on the Ancestry website. If there are aspects of the guide which you don't understand, or if you have further questions about the records held at London Metropolitan Archives, please visit our website at: www.cityoflondon.gov.uk/lma or contact our enquiry service by email: ask.lma@cityoflondon.gov.uk

The following pages list all of the London parishes, even those which have not deposited records at London Metropolitan Archives. Therefore, you will **not** find records on Ancestry for a number of the parishes listed here. The full list is provided as a research tool, to point you in the right direction.

Column 1 gives you the name of the parish, the address of the parish and the dates of existing records of baptisms, marriages and burials along with dates of the surviving records. So, in the example below we can see that All Hallows the Great (name) is in the City of London (address) and that there are baptisms between 1668 and 1888, marriages between 1671 and 1890 and burials between 1671 and 1853.

Column 2 tells you how to access the records. If they are on the Ancestry website, the column will state **ON ANCESTRY**. If the records of one parish have been merged with another there will be a cross reference note such as: **see SAINT GEORGE, SOUTHALL**. There may also be a number of different notes to help you to locate parish records which are not deposited at London Metropolitan Archives and therefore not on the Ancestry website, these include:

NOT DEPOSITED – The records are still at the church in question. Look up the current details of the church and contact it directly.

NOT ON ANCESTRY: FILMS AT LMA – The records are still at the church but London Metropolitan Archives has film copies in its public search room in London (which it is unable to publish to the Ancestry website). London Metropolitan Archives has a paid research service which may be able to search the films for you, contact ask.lma@cityoflondon.gov.uk for more information.

WESTMINSTER CITY ARCHIVES – This means that the records have been deposited with another London record office (in this case, Westminster City Archives). Look up the record office in question and contact it directly for further assistance.

Column 3 lists the current London borough in which the parish is located.
